

# MultiPal™

MultiPal™ is an export pallet designed for the delivery and transportation of goods, serving as a durable alternative to traditional wooden pallets that are prone to decay, poor maintenance, and termite damage. Suitable for both indoor and outdoor use, MultiPal™ offers high compressive strength to reliably support heavy loads.

## APPLICATIONS:

- For export pallets
- Delivery and transportation of goods

## BENEFITS:

- No termite issues
- Indoor and Outdoor applications
- High compressive strength >100tonnes
