

uniseal Bonding Adhesive

Uniseal® Bonding Adhesive is a polychloroprene rubber adhesive for fully bonding smooth-backed PVC membranes to approved substrates. It is high-solid, heat- and aging-resistant, with strong adhesion.

APPLICATIONS:

- Bonding PVC membranes to substrates
- For fully bonded roof systems

BENEFITS:

- Strong adhesion
- Durable, heat- and aging-resistant
- High solid content

Tech Specs	UOM	Uniseal® Bonding Adhesive
Colour		Yellowish
Pack Size	l	18
Solid Content	%	25
Viscosity @ 25°C	cP	5000
Flash Point	°C	<10
Auto-Ignition Temp	°C	>200
Odour		Light smell
Nominal Coverage	m² /l	35 to 45
