

# PlanterCell® Edge Profile 150

An L-shaped stopper for Green Roof systems, securing trays, planting media, and plants while preventing rodent intrusion. Its moulded design includes side slots for drainage and tray alignment, with interlocking capability.

## APPLICATIONS:

- Green roof edge containment
- Retaining trays and planting media
- Rodent protection
- Connecting roof perimeter profiles
- Suitable for curved edges

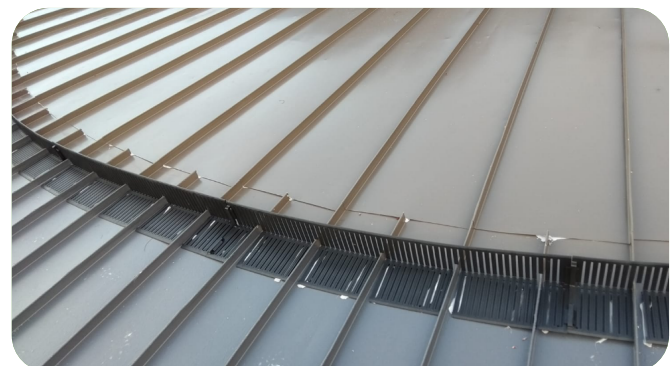

## BENEFITS:

- Secures trays and plants
- Blocks rodents
- Ensures drainage
- Easy tray alignment
- Interlocks for stability

- (1) Roof Slab
- (2) Root Barrier
- (3) PlanterCell® Edge Profile 150
- (4) PlanterCell® Green Roof System
