

# uniseal Adhesive Tape

Single Side

Double Side

Uniseal® Adhesive Tape is a thin, flexible single or double-sided tape that bonds to Uniseal® UpBond HDPE membranes with pressure only, requiring no solvent, water, or heat.

#### APPLICATIONS:

- Bonds Uniseal® UpBond HDPE waterproofing membranes.
- Used where pressure-applied adhesion is needed.

#### BENEFITS:

- No heat, water, or solvent required.
- Strong bond with applied pressure.
- Thin and flexible.

Tech Specs	UOM	Uniseal® Adhesive Tape	
		Single Side	Double Side
Adhesive		Single Side	Double Side
Colour	Standard	White	White
Size: Thickness	mm	1.2	0.9
Width	mm	160	80
Length	m	20	25
Heat Resistance (80°C @ 2hrs)		No displacement / flowing / dripping	
Flexibility @ Low Temperature (-25°C)		No Crack	
Stickiness	min	45	43
Peel Strength			
Coil & Coil	N/mm	1.88	1.88
Coil & Sand Surface Coil	N/mm	1.72	1.74
