

uniseal PVC Membrane

Uniseal® PVC, a durable, flexible single-ply PVC membrane with glass fibre reinforcement. Adheres to roofs, suitable for large areas, and ideal for green roofs due to high puncture resistance.

APPLICATIONS:

- Roof waterproofing
- Green roofs
- Large uninterrupted areas
- Use with Uniseal Bonding Adhesive

BENEFITS:

- Durable and flexible
- Strong glass fibre reinforcement
- High puncture resistance
- Adheres well to roof surfaces

APPLICATION WITH:

- Uniseal® Bonding Adhesive

Tech Specs	UOM	Uniseal® PVC
SGBC Green Product		✓✓✓✓
Material		Single-ply PVC
Colour	Standard	Grey
Size: Thickness	mm	1.5
Width	m	2.1
Length	m	20
Weight	kg/m ²	1.8
UV Exposure 1000hrs		Pass
Tensile Strength @ break	MPa	9
Elonga.on @ break	%	200
Tear Resistance	N	135
Joint Peel Resistance	N/50mm	200
Joint Shear Resistance	N/50mm	540
Sta.c Puncture Resistance	kg	20
Impact Resistance	%	800
Root Resistance		Yes
Ar.ficial Aging		Pass
Cold Foldability	°C	-25
Water Vapour Transmission	μ	20
